“ I worked with Carol for quite a few years at the party store. She was a very dear person to many people and will be greatly missed. My memories are some funny ones, like her running interference between myself and cory when we would get into little arguments, She always helped me in so many ways. Love her always. “ Carol Gladstone and her family we're about as close with with my family as could be. She always made time for me and listen to my problems and gave me her advice whether I wanted to hear it or not I knew she would be honest and I knew she would always have that motherly advice and even after my mother had passed. She was more than a mother to me she was a friend, I stayed many a night with her after Jerry past on. I could never say no to anything that she wanted because she never said no to anything that we needed I remember when we were planning my step daughter's wedding and the budget was pretty tight and she jumped up and said I will do the food don't worry about it it will be wonderful, we will get everything on sale and cut corners but it will be awesome! And when it came to Carol, that's the way she thought about everything she knew lots of people lots of friends that pitched in to help when she was in charge of event. This is a woman who didn't know the meaning of "no I can't help you" I believe that she has never said those words to anyone who needed her help if she couldn't do it for some reason she would figure out a way to get them help. The community will miss this wonderful giving and loving person they don't make people like her anymore. She was one of a kind both my mother and father thought the world of her, as do all my family our heart breaks for her son and daughters and all the grandkids for You Will forever have a void in your hearts but do not let her memory die and that way you will never have to lose her. It may be that song you hear...or that smell of her perfume....or that holiday you'll find tears rolling down your cheek when you least expect it. Don't be sad be happy... that's it your mother still being there with you... for we just passed through this Earth just a short time there's a special place for her in heaven and she's laughing again and she's no longer sick Carol believed in God and she was saved and for that you need to smile and be happy that she has gone to be with our father. I love you all I'm just a phone call away if you need anything or if you just want to talk
