“ Larry was one of the first people who greeted me when I started at Fisher Body. He was always so kind and helpful to the young female student who he knew really was scared to death. Over the years I learned he was just that kind to everyone. He taught kindness by example and will be dearly missed. Julie Kimmer

*Over the years Larry and I became friends. I enjoyed his company very much and we shared a passion for cars. He was always the first to help out and lend a hand. He does have quite a collection and it was an honor to work on Larry's projects he always seemed to have. I will forever remember my friend and I will miss him saying "Hello Neighbor" whenever he seen me outside. He was always good for a laugh and a fun guy to talk politics with.*
