“ I met Country through my son Greggie about 7 years ago.He was so polite, and his accent was so cute!

He stopped by from time to time, sometimes looking for my son , and other times out front of the house to show me his new car ,or to just say hi, I always enjoyed him popping in. He had a weird sense for knowing when I really needed help the most. My Dining room and recreation room floor was completely torn up and my husband and I were in the process of putting laminate wood floors down. It was probably about five or 6 PM when he stop by, He stayed for several hours until the floor was completely put down, and helped Greg out so I didn't have to be on the floor after having so many issues with my knees. It was well after four in the morning Before the Floor was finished,And he insisted he wasn't leaving until the floor was done. We offered him money for helping and he refused it. He had such of an incredible personality, And quite a Sense of humor.We Had many chats about life,As many of you know he had bouts of depression.He will be greatly missed he has such a special place in my heart. My sincere condolences to the family, and prayers that God will help comfort you through your tough times now ,and in the future.
